Mass group as shown on the child restraint	Size classes	Fixtures	Second row outboard seats	Recommended child restraint system
I = 9 to 18 kg - 9 months to 4 years	D	ISO/R2	**IL**	-
	C	ISO/R3	**IL**	-
	B	ISO/F2	**IUF**	Britax/Römer Baby Duo Plus
	B1	ISO/F2X	**IUF**	
	A	ISO/F3	**IUF**	
II/III = 15 to 36 kg - 4 to 12 years	-	-	-	-

IUF = Suitable for ISOFIX forward child restraint systems of universal category, approved for use in this mass group.

IL = These ISOFIX child restraint systems are of the specific vehicle, restricted or semi-universal categories.

X = Not suitable for ISOFIX child restraint fitment in this mass group.

i-Size child restraint system seating positions

Seating position				
	Front Passenger	**Rear outboard left**	**Rear outboard right**	**Rear centre**
i-Size child restraint system	**X**	**i-U**	**i-U**	**X**

Note: *Ages given are approximate. In case of doubt, the child's weight, not age, should be used when considering an appropriate child seat.*

When installing a child seat in the rear, the front seat must be moved forward and upwards to install any rear-facing child seat. Care must be taken not to load any part of the child seat when repositioning the front seat. The space available for front seat occupants will be reduced by the installation of any rearward-facing child seat.

RECOMMENDED CHILD SEATS

Child size/age	Recommended seat
Groups 0 and 0+	Britax/Römer Baby Safe Plus
Group I	Britax/Römer Duo Plus
Group II and III	Britax/Römer Kid Plus

CHILD RESTRAINT CHECK LIST

Every time a child travels in the vehicle, observe the following:

- Use appropriate child restraints.
