

Sun Visors and Vanity Mirrors

Adjustable sun visors can be swung downwards or unclipped and swung sideways to eliminate sun glare.

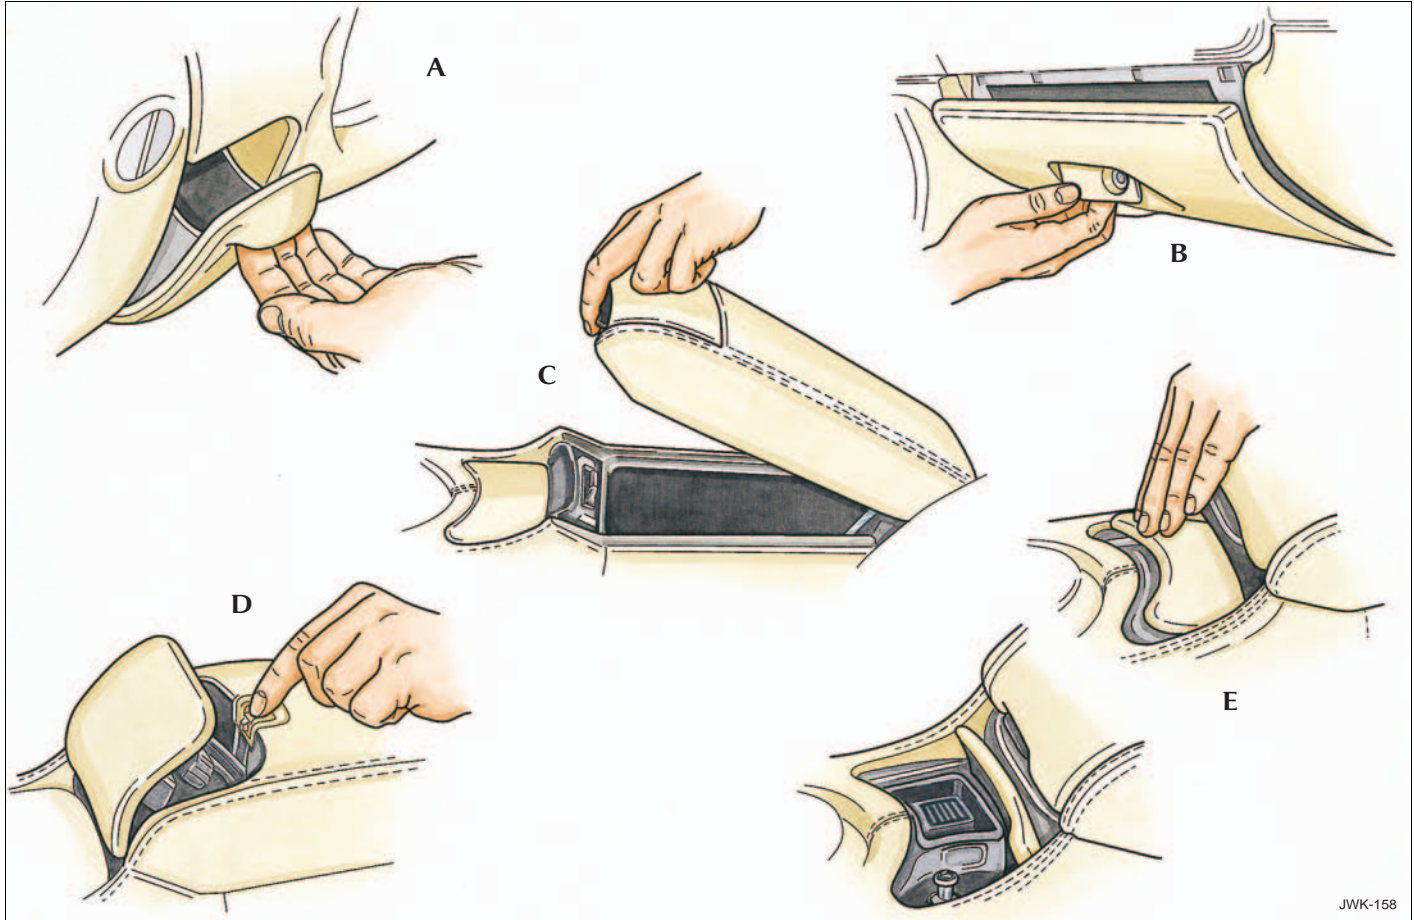

The rear of each sun visor is fitted with an illuminated vanity mirror, behind a hinged flap. The light comes ON when the flap is lifted.

Note: Vanity mirror illumination will only work when the sun visors are held in place by the stowage clips.

When positioned to the side, the sun visors can be moved forwards or rearwards on a telescopic arm, if required.
