LOADING DISCS

Do not force the disc into the slot.

Do not use irregular shaped CDs or DVDs and those with a scratch protection film or self-adhesive label attached.

The CD unit will play compact discs that conform to the international Red Book standard audio specification. Playback of CDs not conforming to this standard cannot be guaranteed.

Recordable (CD-R) discs and re-writable (CD-RW) discs may not function correctly.

Recordable (DVD-R or DVD+R) discs may not function correctly.

Dual format, dual-sided discs (DVD Plus, CD-DVD format) are thicker than normal CDs and consequently playback cannot be guaranteed, and jamming may occur.

It is recommended that only high quality 12 cm (4.7 in.) circular discs are used.

The unit will play Compact Disc Digital Audio (CDDA) discs, MP3, WMA, WAV and AAC files.

The CD/DVD player will accommodate 1 CD or DVD disc at a time but up to 10 CDs can be uploaded onto the virtual store.

Only CDDA discs can be loaded into the virtual CD store.

If an MP3 CD is to be used, each session must be properly closed but the whole disc does not have to be finalised.
