

For more stubborn stains a commercially available carpet cleaner should be used.

CLEANING THE SEAT BELTS

Do not allow any water, cleaning products, or fabric from cloths to enter the seat belt mechanism. Any substance which enters the mechanism may affect the performance of the seat belt in an impact.

Extend the seat belts fully, then use warm water and a non-detergent soap to clean. Allow the seat belts to dry naturally while fully extended and do not allow the belts to retract until fully dry.

Note: *While cleaning the seat belt, take the opportunity to examine the webbing for damage and wear. Any wear or damage should be rectified by a Dealer/ Authorised Repairer.*

AIRBAG MODULE COVERS

Airbag covers should only be cleaned using a slightly dampened cloth and a small amount of upholstery cleaner.

Any substance which enters the mechanism, can prevent correct deployment of an airbag during an impact.
