

Navigation system

At this point, the first time user should set up personal preferences in the **Nav set-up** area. These settings are applied whenever navigation is used.

For a short-cut to set a destination, press **Destination entry** (3). The Destination entry menu will be displayed after pressing **Agree** on the **CAUTION** screen.

MAIN MENU

E141771

1. **More...:** Displays the other Nav menu screen.
2. **Cancel guidance:** Cancels current route guidance.
3. **Destination entry:** Provides a choice of options for entering a destination.
4. **Previous destination:** Displays previous destinations entered.
5. **Display/Hide POI:** Turns the POI (Point Of Interest) icons on the map on/off.
6. When a destination is set, the Jaguar logo is replaced by a soft key which enables the last voice instruction to be repeated.
7. **Route voice guidance:** Allows the voice guidance messages to be turned off for the current journey. The soft key is highlighted while voice guidance is enabled.
8. POI shortcuts: Touch icon to list available POIs close to the vehicle position.
9. **Return to map:** Advances to the main map screen.
10. (Callout to 'Return to map' button)
11. **Nav set-up:** (Callout to 'Nav set-up' button)
12. **Route options:** (Callout to 'Route options' button)
13. **TMC:** (Callout to 'TMC' button)
14. **Stored locations:** (Callout to 'Stored locations' button)
