

Warranties: California Emission Control System Warranties

California Emission Control System Warranties apply to 2007 Model Year vehicles registered in California, Maine, Massachusetts, New York or Vermont.

Your Warranty Rights and Obligations

The California Air Resources Board and Jaguar Cars are pleased to explain the emission control system warranty on your 2007 Jaguar vehicle. In California, new motor vehicles must be designed, built and equipped to meet the State's stringent anti-smog standards. Jaguar Cars must warrant the emission control system on your vehicle for the periods of time listed on page 15 and on page 5, provided there has been no abuse, neglect, or improper maintenance of your vehicle.

Your emission control system may include parts such as the fuel injection system, ignition system, catalytic converter, and engine computer. Also included may be hoses, belts, connectors and other emission related assemblies.

Where a warrantable condition exists, Jaguar Cars will repair your vehicle at no cost to you. Repairs include diagnosis, parts and labor.

Manufacturer's Warranty Coverage

The warranty period for the vehicle begins on the date of first retail sale, or on the date of entry into demonstrator or company service.

For three (3) years or 50,000 miles (whichever occurs first)

- If your vehicle fails a Smog Check inspection, all necessary repairs and adjustments will be made by Jaguar Cars to ensure that your vehicle passes the inspection. This is your emission control system **PERFORMANCE WARRANTY**.
- If any emission-related part on your vehicle is defective, the part will be repaired or replaced by Jaguar Cars. This is your short-term emission control system **DEFECTS WARRANTY**. Jaguar Cars has voluntarily extended your short-term emission control system **DEFECTS WARRANTY** to four (4) years or 50,000 miles, whichever occurs first.

An emission-related warranted part is any part on the vehicle, or any part installed during a warranty repair, which affects any regulated emission from a motor vehicle that is subject to California emission standards.

For seven (7) years or 70,000 miles (whichever occurs first)

- If a part listed on the seven (7) years or 70,000 miles parts list is defective, the part will be repaired or replaced by Jaguar Cars. This is your long-term emission control system **DEFECTS WARRANTY**.

Warranties: California Emission Control System Warranties

Seven (7) years or 70,000 miles parts list:

The following components are covered for all Jaguar vehicle models unless otherwise noted:

Fuel tank
Intake manifold(s)
Mass air flow sensor
Oxygen sensors
Supercharger *
Throttle body assembly
Transmission control module (TCM)
Variable valve timing unit(s) **

* Supercharged models only

** Non-supercharged models only

Owner's Warranty Responsibilities

As the vehicle owner, you are responsible for the performance of the required maintenance listed in the Owner's Handbook and in this Passport to Service. Jaguar Cars recommends that you retain all receipts covering maintenance on your vehicle, but Jaguar Cars cannot deny warranty coverage solely for the lack of receipts or for your failure to ensure the performance of all scheduled maintenance.

You are responsible for presenting your vehicle to a Jaguar dealer as soon as a problem exists. The warranty repairs should be completed in a reasonable amount of time, not to exceed thirty (30) days.

As the vehicle owner, you should also be aware that Jaguar Cars may deny

your warranty coverage if your vehicle or a part has failed due to abuse, neglect, improper maintenance, or unapproved modifications.

If you have any questions regarding your warranty rights and responsibilities or if you want to report what you believe to be violations of the terms of this warranty you should contact Jaguar Cars Customer Relationship Center at 1-800-4 JAGUAR (1-800-452-4827) or the California Air Resources Board at:

State of California Air Resources Board
Mobile Source Operations Division
9528 Telstar Avenue
El Monte, CA 91731

California Maintenance Schedules

There are maintenance schedules and parts replacement intervals for California specification vehicles that are considered the minimum requirement. Any part scheduled for replacement at a scheduled maintenance interval is covered only up to that scheduled maintenance interval. The service and replacement intervals for these items are indicated in the maintenance schedules in the Owner's Handbook and Passport to Service maintenance section. Refer to pages 28 – 29 of this booklet.
