JAGUAR CARS LIMITED, as manufacturer, is dedicated to the design and production of vehicles which meet the expectations of the world’s most discerning purchasers. This handbook forms part of the owner literature supplied with your vehicle. It is designed to complement the relevant features and systems of the vehicle, and make them easy to understand and operate.

The information contained in this handbook applies to a range of vehicles and not to a specific vehicle. For the specification of a particular vehicle, owners should consult their Jaguar Dealer/Authorised Repairer.

The manufacturer reserves the right to vary its specifications with or without notice, and at such times and in such manner as it thinks fit. Major as well as minor changes may be involved in accordance with the manufacturer’s policy of constant product improvement.

To cover changes, it is sometimes necessary to issue one or more handbook supplements. When reading this handbook, check the owner literature for possible supplements.

For full details of the owner literature originally supplied with the vehicle, owners should consult their Jaguar Dealer/Authorised Repairer.

Quick Overview

Warning Lights

1. Left-hand indicator.
2. Low outside temperature.
3. Glow plug (diesel only).
4. Engine malfunction.
5. Low oil pressure.
6. Battery charge indicator.
7. Front fog lights.
8. Main beam.
9. Rear fog lights.
10. Side (parking) lights.
11. Overspeed warning (Gulf only).
13. Right-hand indicator.

15. Low fuel level.
17. Cruise control active.
18. Priority indicator (Red).
21. Anti-lock braking system (ABS).
22. High engine temperature.
23. Parkbrake on/brake fluid low.

For detailed information about instruments and warning lights, refer to pages 95 and 97 of this handbook.
Quick Overview

Fascia Controls

1. External lights switch (119).
3. Instrument panel (95).
5. Wiper/washer switches (130).
6. Headlight levelling switch (122).
7. Fog lights (121).
8. Trip computer (108).
10. Luggage compartment release switch (42).
11. Forward alert switch (117).
13. Ignition switch (33).
15. Cruise control or adaptive cruise control (if fitted) switches (111).
17. Audio switches (see audio systems handbook).

Page numbers (shown in brackets) refer to pages in this handbook that have further relevant information.
Quick Overview

Centre Console

1. Airbag OFF indicator light (66).
2. Climate control panel (162).
3. Audio panel (see audio systems handbook).
4. Navigation Screen, if fitted (see touch-screen display handbook).
5. Front seat heaters (79).
6. Door locking switch (39).
8. Sport mode switch (141).
10. Gear selector (140).

Page numbers (shown in brackets) refer to pages in this handbook that have further relevant information.
Quick Overview

Overhead Console

1. Rear sunblind.
2. Front and rear park distance control.
3. Sunroof.
4. Garage door opener.
5. Reading/map lights.
6. Front and rear courtesy lights.

Setting a Driving Position

It is advisable to first move the driver’s seat to the correct position in relation to the pedals, gear selector and the front and side vision before adjusting the steering column, mirrors and seat belt.

Seat Adjustment

1. Adjusts the seat fore and aft position and cushion height and front tilt.
2. Adjusts the seat cushion extension (if fitted).
3. Controls the lumbar support in the lower backrest.
4. Adjusts the seat back angle (recline) and headrest height.

For more information on front and rear seat operation, see page 75.
Quick Overview

Steering Column Adjustment

Rotate the switch on the left-hand side of the steering column to COLUMN (or AUTO) and move the switch to adjust the steering column until a comfortable position is obtained.

For entry/exit mode rotate the switch to AUTO. This will not activate if PEDALS or COLUMN is selected.

For full details on how to adjust the steering column, see page 81.

Pedal Adjustment

(Where fitted)

Select PEDALS and move the switch fore and aft until a comfortable position is obtained.

Note: Any adjustment to the pedals is inhibited when cruise control is activated.

For information on pedal adjustment, see page 83.
Quick Overview

Door Mirror Adjustment

1. Adjusts the exterior mirrors.
2. Selects left or right-hand door mirror.

**Power foldback (Where fitted):** Set button (2) to the centre position, briefly press the rear of button (1). To return the mirrors to their normal driving position briefly press the rear of button (1) again. For more information on door mirrors, see page 86.

Window Operation

1. Opens/closes front windows.
2. Opens/closes rear windows.
3. Isolates operation of rear windows.
For more information on window operation, see page 84.

Setting Memory

(Where fitted)

1. Adjust your seat, steering column and exterior mirrors to your preferred position.
2. Press MEMORY (A) and the red tell-tale will illuminate for 5 seconds.
3. Press either 1 or 2 to store into the desired memory location while the LED is illuminated. A short acceptance tone is given.

Exterior Lights - Autolamps

For AUTOLAMPS function rotate the rotary collar (1) to AUTO (2).
For more information about exterior lighting, see page 120.
Quick Overview

Occupancy Sensing

The front passenger seat is equipped with a sensor that determines the occupancy status by measuring the weight on the cushion and changes the passenger airbag deployment status.

An indicator light is located on the passenger fascia and illuminates a symbol denoting passenger airbag deactivation.

- Seat with low weight occupant/object - airbag deactivated - indicator light ON.
- Seat with heavy occupant/object - airbag activated - indicator light OFF.
- * Seat completely empty - airbag deactivated - indicator light OFF.
  * It is possible to receive an intermittent indicator light with an empty seat condition. This is part of the system adaptive behaviour and does not affect the status of the passenger airbag deployment.

However, if the indicator light becomes permanently illuminated when the seat is definitely empty, then consult your nearest Jaguar Dealer/Authorised Repairer immediately.

Parkbrake

To apply parkbrake: Pull the parkbrake switch up and release. The warning light in the instrument cluster will illuminate.

To release parkbrake: The ignition switch must be in position ‘II’, apply the footbrake and push the parkbrake switch down.

Note: The parkbrake automatically applies when the ignition key is removed.

Auto transmission

The parkbrake is automatically released when the gear selector is moved from ‘P’ or by pressing the accelerator pedal when in gear.

Manual transmission

The parkbrake is only released via the parkbrake switch or by driving the vehicle away with the accelerator depressed.

For full operating details, see page 132.
**Quick Overview**

**Wipers and Washers**

1. Wipers OFF.
2. Intermittent wipe.
3. Normal wiper operation.
4. High speed wiper operation.
5. Intermittent delay collar - rotate to vary the wipe delay and AUTO (rain sensitive wiper operation).

**Note:** If the wipers are switched on in **AUTO** for more than 20 seconds and **AUTOLAMPS** has been selected, then the exterior lights will be switched on.

**Caution:** Ensure that AUTO is not selected when entering a car wash or damage to the wiper blades/arms can occur.

**Flick wipe** - pull towards the steering wheel.

**Wash/wipe** - push the button on the end of the column switch.

For full details on how to operate the wipers/washers, see page 130.

---

**Trip Computer**

**To reset**
Press and hold the **RESET** button for three seconds.

**To display**
Press the **TRIP** button on the end of the left column stalk switch to cycle through the display data.

**Note:** Messages can be hidden by one press of the **RESET** button.
Quick Overview

Climate Control

1. Push for system ON/OFF, rotate for manual blower speed.
2. Air conditioning.
3. Automatic operation.
4. Heated rear screen.
5. Heated front screen (if fitted).
6. Defrost.

For optimum comfort and system operation:
- Optimum temperature control and comfort is achieved by selecting AUTO.
- Operate with A/C on throughout the year to reduce the risk of misting.
- A/C operates automatically in DEF and partial screen modes to maximise screen clearance. A/C cannot be switched off in DEF.
- Recirculation is automatically cancelled in DEF and in partial screen modes as it contributes to misting. Recirculation cannot be selected in DEF.

It is normal for puddles of liquid to occur under the vehicle, particularly in hot/humid conditions.

For full details of climate control, see page 159.
Quick Overview

Audio System

1. ON/OFF switch and volume control.
2. Seek AM/FM station, seek tape or cue/rewind CD.
3. AM/FM radio waveband select.
4. Select cassette tape play when in other audio mode. Change tape side when a tape is playing.
5. Select CD changer.
6. Pre-set buttons and phone key pad.
7. Phone mode.
8. Cassette tape eject.
10. Select CD changer.
11. Select MiniDisc play when in other audio mode.
12. CD eject.
13. Select CD changer.
14. Select CD play when in other audio mode.

For all other options and functions, see the audio systems handbook.
Filling Station Information

Fuel Type

Petrol models - Unleaded 95 RON.

Diesel models - Diesel fuel to EN 590 or equivalent.

Caution: DIESEL ENGINES - If you inadvertently fill your vehicle with petrol instead of diesel, do not attempt to start the engine.
Contact your Jaguar Dealer/Authorised Repairer immediately.

Attempting to start the engine with petrol in the fuel tank will cause extensive damage to the engine and fuel system, which will not be covered by your Jaguar warranty.
Jaguar can accept no responsibility for any damage caused by running your vehicle with petrol or vegetable oil in the fuel tank.

Diesel engines only: Driver’s should expect above normal fuel consumption when the engine is new and ‘bedding-in’.
After a period, the fuel consumption will gradually improve to expected fuel consumption levels.

Caution: Do not use RME (bio-diesel) except in the case of proprietary diesel fuels which contain a mix of up to 5%.

Note: Vehicles with a diesel engine have a yellow filler cap.

Fuel Filling

Press the fuel filler flap release. This is located on the driver’s knee bolster switch below the fascia, see page 151.

The filler flap is located on the right-hand side of the vehicle.
For quickness and to completely fill the tank, ensure that the fuel nozzle rests on the bottom of the filler neck.
Incorrect closure of the fuel filler cap may result in check engine light (malfunction indicator light) illuminating.
After refuelling, refit the fuel filler cap in the filler neck, twist the filler cap clockwise until it clicks and close the flap, which automatically locks shut.
Filling Station Information

Bonnet Release

Underbonnet Top-up

Recommended Engine Oil.
See page 204.

Petrol models -
Castrol 5W-30 to Jaguar specification
WSS M2C913 - A or B.

Diesel models -
An oil of 5W-30 viscosity to Jaguar
specification WSS M2C913 - B must be
used in all vehicles with a diesel engine.

For top-up purposes only, where the
WSS M2C913 - B specification cannot be
found, ACEA B1 or ACEA B3 specification
oils may be used.

Windscreen/Headlight Washer
Reservoir.
See page 208.

Coolant System
50% water/50% anti-freeze, see page
205.

Pull the release lever located below the
fascia on the driver’s side of the vehicle
(see page 198).
Filling Station Information

Tyre Pressures

The tyre pressures for all normal operating conditions are shown on a label fixed to the inside of the driver's door front pillar.

Check pressures when the tyres are cold (see page 214). Deflating air from a warm tyre to the recommended pressure will result in under inflation which may be dangerous.

For your convenience you may wish to record the tyre pressures in the boxes provided below. If you are unsure of the correct pressures, please contact your Jaguar Dealer/Authorised Repairer.
