Interior Lighting

CABIN LIGHTING

1. Front and rear courtesy lights and footwell lights.
2. Reading/map lights.
3. Centre console illumination.

Interior lighting comprises front overhead courtesy light and two front and two rear reading/map lights. Vanity mirror, glove compartment, footwell and luggage compartment lights are also provided.

Pressing the centre switch (1) in the overhead console turns the front and rear courtesy lights and footwell lights on. A second press turns the lights off.

The centre console area is illuminated by a small light from the overhead console (3). This is on whenever the sidelights are on and can be controlled by the dimmer switch.

Reading/map Lights

The reading/map lights are turned on and off by individual switches (2).

The reading/map lights will remain on for up to 15 minutes after the ignition has been turned off.

Rear Lighting

The rear interior lights can be switched on or off by pressing the lens cover.

Illuminated entry/Exit

The interior lights fade on when a door is opened and go out when the engine is started or 15 seconds after the last door is closed. If any door is left open, the lights will fade off after two minutes.

When the vehicle is unlocked with a key or the key transmitter, the courtesy lights will come on at maximum brightness for two minutes if a door is not opened.

With the engine running, opening any door will put on all interior lights, they will go out immediately after the last door is closed.

Glove compartment

The glove compartment will be illuminated when the lid is opened.

Luggage Compartment Lighting

The trunk will be illuminated when the lid is opened.
