

Route Setting Example

This is a simple example showing how to use the basic features of the system to set a route. It describes each screen in turn and explains how to use the controls. For information relating to the other features of the system, see the relevant section in this handbook.

Note: Before using the system, check that the correct Navigation System DVD is loaded, see **Loading the Navigation System DVD** on page 4-5.

1 Selecting the System

Note: The ignition must be switched on (position '1').

To select the navigation system (if necessary), push the **NAV** button on the perimeter of the touch-screen panel. The road safety caution will be displayed. To use the system, read the caution and touch **Agree**.

2 Map Display

The initial map screen showing the current vehicle position is displayed.

- Touch **Nav Menu** to select the Navigation menu.

3 Navigation Menu

The Navigation menu is the top level menu of the system, and shows the main functions that are available.

- Touch **Destination Entry** to select the Destination Entry menu.

6-2 Navigation System – How to Set a Simple Route

Route Setting Example (continued)

4 Destination Entry Menu

The Destination Entry menu shows the options available for setting a route. The map inset shows the currently selected area, which the system will use when searching for destination addresses.

- Touch **Address** to enter the destination details for the desired route.

Note: If your route destination is not within the area highlighted on the map, another search area must be selected, see **Search Area/Country Change** on page 12-1.

5 Enter Street Name

- Enter the street name by touching the buttons required.

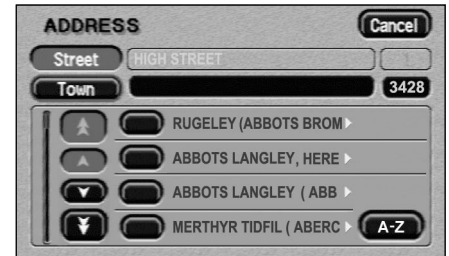

For more information, see **Character Input** on page 5-6.

- When sufficient characters have been entered, touch **List**.

The list of possible streets from the characters entered is displayed.

- Select the street required.

Note: In this example the street name is entered first. Addresses can be entered in other ways, e.g. town name first.

6 Select Town

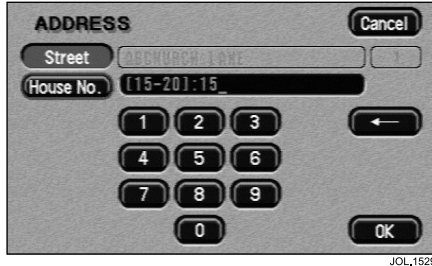

The screen shows the list of towns where the street name entered occurs.

- Select the town required.

Note:

1. If there is only one town match, this step is omitted.
2. If more than 100 matches are found, the alpha keyboard screen is displayed automatically, to allow the desired town name to be entered.
3. If less than 100 matches are found, the alpha keyboard screen may be displayed manually by touching the **A-Z** button.

Route Setting Example (continued)

7 Enter House Number

- Enter the house number by touching the buttons required.

For more information, see **Number Input** on page 5-6.

- When all the digits have been entered, touch **OK**.

Note:

1. If a list of house number ranges is displayed, select the range applicable.
2. If the street does not have house numbers, or the house number is not known, just touch **OK**. The mid-point of the street will be used as the destination.

8 Confirm Destination

The map screen showing the destination details, and the current route settings is displayed.

- Touch **Dest.** to confirm as a destination.

The screen shows 'Calculating Route' while the route is calculated.

Note: For information on using way points, see **Route Calculation** on page 11-1.

9 Start Guidance

When the route calculation has been completed, the map display shows the entire route and the route information at the top of the screen.

- Touch **Start** (or commence driving).

Alternative routes

The system will also calculate at least one alternative route (where possible). The alternative route(s) can be viewed and selected in place of the original route if required.

- To view an alternative route, touch **Next**.

6-4 Navigation System – How to Set a Simple Route

Route Setting Example (continued)

10 Route Guidance

WARNING:

Only operate, adjust or view the system when it is safe to do so.

After touching **Start**, the initial map screen while under guidance is displayed. The route is shown highlighted, with the current road name shown in the text area at the bottom of the screen.

Drive away, following the voice guidance given by the system. Continue to follow the voice guidance until the end of the route is reached.

11 Arrival at Destination

When the vehicle reaches the end of the route, the screen shows the destination address details. Arrival at the destination is also confirmed by voice guidance. The system is now ready for further use.

Toll roads and ferries

The following small icons will be displayed in the top text area when their function has been set by the user.

Shown when a route has been set which includes toll payment areas.

Shown when a route has been set which includes a ferry.
