

Navigation system

THE NAVIGATION SYSTEM

Navigation instruction is by map and turn information displayed on the touch screen and can be complemented by voice guidance if required. A detailed intersection map is also displayed in the instrument panel. The system uses signals from Global Positioning System (GPS) satellites combined with information from vehicle sensors and from data stored on the hard drive, to establish the true vehicle position.

Note: Mapping data loaded on the hard drive is relevant to the market in which the vehicle is first sold and will provide guidance and information only for that area. Your local Jaguar Dealer will have details of software updates.

Using this combination of data sources the vehicle navigation computer enables you to plan and follow a route map to your desired destination.

The touch screen is used to control navigation via menus, text screens and map displays.

USING THE NAVIGATION SYSTEM

If the screen is already displaying another function (radio, phone, etc.) touch either the back arrow or the **Menu** button below the touch-screen to access the Home Menu.

1. Touch screen on/off.
2. Return to the home menu.
3. Navigation soft key. Touch to select Navigation.

Select **Nav**.

Read the caution and touch **Agree** or select **Language** if you need to select a different navigation language.

TURN-BY-TURN NAVIGATION

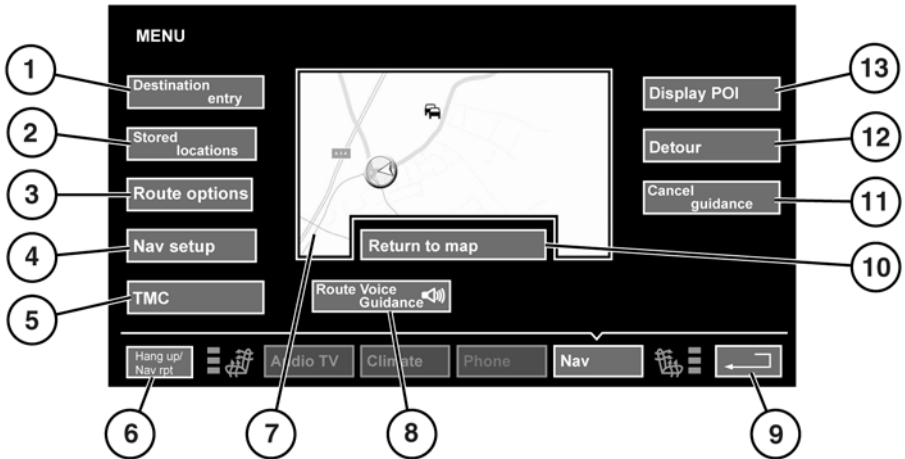

Turn-by-turn navigation guidance (displayed in the message centre) can be turned on or off as follows:

From the main navigation menu, select **Nav Setup**, then select **User Settings**.

Scroll through the user settings list until the **Message centre guidance** band is displayed. Touch the band to select/deselect the feature.

The band is highlighted when message centre guidance is enabled.

MAIN MENU

SJ1126

1. Provides a choice of options for entering a destination.
2. Manage the stored destinations.
3. Allows the user to select various options for the route.
4. Provides access to user selectable settings for the navigation system.
5. TMC (Traffic Message Channel). Not used for entering a destination but, when enabled, will provide data about road conditions and any events that may affect the journey.
6. Repeats the previous guidance instruction.
7. Map screen. Displays current vehicle position.
8. Allows the voice guidance messages to be turned off for the current journey.
9. Returns to the previous screen.
10. Advances to the main map screen.
11. Cancels current route guidance.
12. Allows the user to take a detour from the current route.
13. Allows the user to turn off POI icons.

Navigation system

MAP SPLIT SCREEN

SJ1542

1. North is up.
2. TMC (Traffic Message Channel) information.
3. Small compass display which always indicates North.
4. Next direction display.
5. Current vehicle position.
6. Split screen scale/zoom setting.
7. Return to the previous screen.
8. Split screen.
9. Current street location.
10. No GPS signal.
11. Normal screen.
12. Screen mode selection.
13. Navigation menu.
14. Normal screen scale/zoom setting.
15. Distance/time to destination.
16. TMC event (traffic congestion).

SCREEN MODES

Touch the screen mode selection button (12) to view a series of icons, each depicting a different screen mode (as detailed below). Touch the relevant icon to select the desired screen mode.

Full screen view.

Split screen view. A more detailed view of the local area and road system is displayed on the right.

Compass screen.

Shows the next junction in the right half screen.

This view is only available when travelling on a motorway. It displays automatically to show remaining motorway exits along your route.

Shows list of forthcoming junctions and turn directions on the right half screen.

COMPASS

Select the compass icon and the compass will be displayed.

The map display can be set to always face North, or the vehicle direction arrow always facing towards the top of the map. To change this setting touch the icon in the top left-hand corner of the screen.

SEARCH AREA

The navigation map database is divided into countries, or areas of countries, called search areas. When setting a route, the destination (or waypoint) entered must be in the currently selected search area.

Before attempting to set a destination or waypoint, set the correct search area as follows:

- Select **Dest. entry** from the main navigation menu. The information window will show the currently selected search area.
- Select **Search area**.
- Scroll through the list and select the 3 letter code that corresponds to the desired destination area.
- Select **OK**. The destination entry menu is shown and the information window shows the currently selected search area.

SETTING A DESTINATION

After touching Agree, the initial map screen is displayed, now select Nav Menu

From the Navigation Menu, select **Dest. Entry**.

Note: If you wish to view the map without the buttons showing, touch **Return to map**. To display the buttons, touch **Nav Menu**.

Select **Address** from the **Destination** screen and input the town name.

Navigation system

Once sufficient letters have been entered, touch **List** to display all the possible towns.

If necessary, use the scroll arrows to the left of the list to search up or down. Select the town you require.

Now enter the road name. Once sufficient letters have been entered, touch **List** to display all the possible roads.

Select the road you require.

Enter the house number of the address (if known) then touch **OK** to confirm.

If the house number is not known, press **OK** - the mid-point of the road is then used as the destination.

Note: *If a list of house number ranges is displayed, select the applicable range and then enter the number.*

The map screen showing the route settings and destination details is displayed.

START GUIDANCE

After touching **Destination**, the system will calculate the route.

There is now a choice to select **3 Routes**, **Change route** or to **Start** navigation guidance.

Touch **3 Routes** to display a choice of three different route options on the map.

The roads on the map are drawn in three different colours to highlight each route.

Select route **1**, **2** or **3** by touching the respective box displayed on the right side of the map.

Touch **Change Route** followed by **Route prefs.** to change the route settings. If a destination is already set, touch **Waypoint** to add a waypoint in the journey if required.

When you have made your selection, if any, touch **Start**.

Note: *As you approach a junction, in addition to the voice guidance, an inset on the map will display an enlarged view of the junction.*

VOICE GUIDANCE

The last voice guidance message can be repeated by touching the speaker icon on the screen.

To turn voice guidance on or off but maintain route guidance, proceed as follows:

1. Touch the **Nav Menu** soft key.
2. Touch the **Route VG** soft key. The soft key will be highlighted when voice guidance messages are enabled.

CANCEL GUIDANCE

To cancel guidance, touch Nav Menu on the touch screen, and then Stop Guidance.

QUICK POI SELECTION

Touch the Map screen to display the POI button. Touch the POI button. The screen shows six suggested categories, five of which can be selected as quick points of interest.

Note: *The POI icons will not be shown if the map zoom level is greater than 1 km (½ mile).*

Select a Quick POI category, or select **More** to see further POIs. Touch **OK** to confirm a selection.

The map screen with the POI icon(s) is displayed. Select the five POIs you wish to see when the Quick POIs are displayed.

CALIBRATION

If the vehicle has been moved other than being driven, by rail or trailer for example, the vehicle position/direction may need to be calibrated.

The map showing the heading adjustment arrows is displayed. Adjust the heading by touching and using the arrows until the navigation symbol shows the correct alignment. Touch **OK** to confirm the new heading.

If the vehicle's tyres are changed the distance travelled may need to be calibrated. Touch **Distance** and follow the instructions on screen.

RESTORE SYSTEM DEFAULTS

If you have made any changes to the system's default settings, use this menu to restore the original settings.

MEMORY POINTS

From the navigation menu, select **Stored Loc**. This enables you to manage destinations such as, place of work, home, favourite restaurant or areas to avoid.

From the **Stored Locations** menu you can save up to 400 memory points or add your home address.

Select **Memory Points** to add a stored location.

Touching any of the **Stored Locations** submenus allows you to **Add**, **Edit** or **Delete**.

Select **Add** to store a memory point.

MEMORY POINT DETAILS

- Touch **Info**. to display the details of the selected memory point.

The details include **Icon**, **Name**, **Position** and **Tel**.

The telephone number can be called by touching the telephone button if a Jaguar telephone is fitted.

The memory point details can be edited from the **Stored Loc** screen.

POSTCODE

Not all countries have this facility. Enter the postcode of your waypoint or destination from the keypad. The postcode must be entered precisely, including any spaces or punctuation. When the postcode has been entered touch **OK**.

EMERGENCY

Not all countries have this facility. Touch **Emergency on the Dest**. Entry screen to display a list of local police stations, hospitals or Jaguar Dealerships.

Press **Name** to display the list in alphabetical order or **Distance** to display the list in order of proximity to the current vehicle location.

Touch the name of the facility to set it as a destination or waypoint.

MAP

After selecting map, the local area map is displayed. Drag the circle to the area for your destination or waypoint, zooming in if required.

This location can be stored as a destination or waypoint.

COORDINATES

If you know the coordinates of your destination they can be entered from this screen. The full latitude must be entered first before the longitude coordinates can be entered.

When the coordinates have been entered, touch **OK**.

Navigation system

If the coordinates entered are not contained within the area covered by the available maps, a message will be shown. This can also occur if the incorrect coordinates have been entered.

PREVIOUS

After selecting **Previous** from the menu, the screen shows a list of stored previous destinations. Select your destination by touching the bar. The details will be displayed for confirmation.

Note: In some markets, list scrolling is not active whilst driving for legislative reasons. Only the items shown at the top of the list can be selected.

MOTORWAY

From **Dest. Entry** select **Motorway**.

Enter the motorway name or number, then select an entrance or exit. All of the entrance or exit junctions for the chosen motorway are displayed.

The map showing the selected motorway and the selected exit junction is displayed.

The destination has now been set and the route is calculated.

POINTS OF INTEREST

Select **POI** from the **Dest. entry** menu.

Touch **Name** to input the POI name, for example Petrol to display fuel stations on the map, or touch **List** for a list of POIs.

Alternatively, choose **Category** to see all categories of POI and make your selection.

Use the scroll arrows to change pages.

Some POIs are sub-categorised, e.g. selecting **Community** will be further divided into:

- Community Centre.
- Exhibition Centre.

- Hospital.
- Park & Recreation.
- Town Hall

Note: If entering a POI name results in too many matches being listed, try entering the town name first. If you do not know the name of the POI you want, try selecting a POI category.

Note: POI icons can only be displayed up to the 1 km (½ mile) zoom level.

Once the POI has been selected the route is determined. Touch **Change route**. to change the route settings, or touch **OK** to start the route calculation.

JAGUAR DEALER LOCATIONS

Details of Jaguar Dealers are held on the Navigation System hard drive as a points of interest (POI) category. Certain Dealers may be located in areas that are not fully mapped on the hard drive. If a route is set to one of these Dealers, guidance may only be possible to the nearest town centre; in this case a warning message will be displayed.

Note: If Jaguar Dealers (or certain other categories, such as airports) are selected, they will be displayed across all search areas.

ENTRY BY TOWN

If a town name is entered first, the points of interest listed will be restricted to that town.

- From the Input POI Name screen, touch **Town**.
- Enter the town name required.
- Touch **List** to display the list of possible towns.
- Select the town required.

The Input POI screen is displayed again.

- Enter the POI name required.

CATEGORIES AND SUB-CATEGORIES

The POI database is divided into a number of categories. Each main category is further divided into a number of sub-categories.

The first entry in the list of Restaurant sub-categories, is **ALL**. This selects all of the Restaurant sub-categories.

To narrow the search, touch the **Town** button. This will display the alpha keyboard to allow the desired town name to be entered.

SEARCH AREA

When searching the database, only points of interest in the current search area are included, except for the sub-categories marked **All search areas** in the POI category list.

LIST SOFT KEY

The **List** button can be used when the characters entered reduce the possible entries to a small enough number.

You can also select **List** (when active) without entering a POI name. All the relevant points of interest will be displayed, e.g. in a selected town or category.

ALL SOFTKEY

The **All** button shows a list of all POI categories.

LOCAL POI SEARCH

This selects the points of interest in all categories within 32 kilometres (20 miles) of the vehicle.

- Touch the **All Local POIs** button.

RDS-TMC OVERVIEW

Radio Data System-Traffic Message Channel (RDS-TMC) is a feature that announces traffic hold-ups on your route as broadcast by radio stations that transmit TMC information.

Touch the **TMC** button on the Navigation Menu to access the TMC menu.

Touch the **Change** button - to begin a search of all radio stations being received in your locality.

The tuner will scan the FM frequency once. This may take a few minutes; **Searching** will be displayed while scanning is in progress.

When a station is found which is offering TMC information, the RDS name is shown on the list and the search for more stations will continue.

***Note:** In the United Kingdom the station giving TMC information is Classic FM.*

You can stop the search at any time and select any stations presented on the list, by touching the **Change** button or the button next to the desired station in the list.

RDS-TMC DISPLAY

When a TMC signal is received the icon in the top left of the screen will appear green. If a TMC signal is not being received, the icon will be shown with a bar through it.

The system will inform the driver of any roadworks, narrow road, contraflow, accidents, slippery road, diversion, information, parking information, congestion or other hazard.

The driver is informed of a traffic event as follows:

- A TMC Event icon shown on the map at the location of the event.
- Text can be displayed showing the details of each occurrence which can be selected either by touching the screen icon or from the traffic information list.

Navigation system

- Dynamic route guidance, which calculates an alternative route when the system receives the traffic event warning affecting the route currently set in the navigation system.
- Traffic event list shows all events sorted by road name/ distance on your selected route in a straight line or along your actual route.

The information regarding the hold-up is maintained and updated even if the vehicle crosses into another country.

RDS-TMC ICONS

Any traffic event (broadcast on TMC) in your area, will be displayed as a warning icon on the map and an alert may be displayed as a message giving the road number(s) and between which junctions the hold-up or event occurs. Voice guidance will also inform you of the hold-up when an event icon exists on the current route.

This data is stored in the system for up to 30 minutes.

The colour of the TMC icon changes in order to show the type and priority of a TMC event. The background colour of the icon returns to normal when there is no longer an event or hold-up, or if any re-route instructions are calculated.

The TMC Event icons appear on the navigation map display to indicate the location and nature of a TMC event.

TMC Event icons will appear on the map, even if the event does not occur on your route.

LEVEL 1 TMC EVENT ICONS

	Incident (Red star)
--	---------------------

	Moving Tailback Ahead (Red arrow)
	Moving Tailback Both Carriageways (Red double arrow)
	Slow Traffic Ahead (Yellow arrow)
	Slow Traffic Both Carriageways (Yellow double arrow)
	Information (Yellow circle)
	Incident (Yellow star)
	Stationary Traffic Ahead (Red arrow pointing on line)
	Stationary Traffic Both Carriageways (Red double arrow pointing on line)

Note: Single arrow icons indicate that the traffic event affects traffic travelling in the direction of the arrow. Double arrows indicate that both directions are affected.

LEVEL 2 TMC EVENT ICONS

	Other Hazard (Yellow)
	Roadworks (Pink)
	Narrow Road (Pink)
	Contraflow (Pink)

	Accidents (Pink)
	Slippery Road (Yellow)
	Diversion (Yellow)
	Parking Information (Grey)
	Information (Gray)
	Congestion (Red)

USING TMC

Dynamic route guidance will calculate an alternative route to avoid a traffic event when the system receives an event warning. The system calculates a new route for all sections. However, if any way points are set, the system calculates for the next way point. If the event on route is serious (closed road) or if the new route is shorter than the current one and the current one was not recalculated within the last 5 minutes, then a message to confirm the new route will be displayed. This pop-up message will be displayed for 10 minutes and if the new route is not rejected, then the vehicle will follow the new route.

ORDNANCE SURVEY DATA

Please read this agreement carefully before using the Navigation System.

This is a licence agreement to use the Ordnance Survey (OS) Code-Point data incorporated in the Navigation System. By using this Code-Point data you accept and agree to all the terms and conditions below.

OWNERSHIP

The OS Code-Point data is licensed by Ordnance Survey with permission of Her Majesty's Stationery Office. © Crown Copyright. All rights reserved.

LICENCE GRANT

OS grants you a non-exclusive licence to use your copy of the OS Code-Point data for your personal use solely as part of the Navigation System. You may transfer the licence to a subsequent purchaser of the vehicle with which the Navigation System is supplied, provided that the purchaser agrees to abide by each of the terms of this licence.

LICENCE TERMS

These licence terms are governed by English Law and are subject to the exclusive jurisdiction of the English courts.

LIMITATIONS OF USE

The OS Code-Point data is restricted for use in the specific system for which it was created. Except to the extent explicitly permitted by mandatory applicable laws, you may not extract or re-utilise any part of the contents of the OS Code-Point data, not reproduce, copy, modify, adapt, translate, disassemble, decompile, or reverse engineer any portion of the OS Code-Point data.

LIMITATION OF LIABILITY

Ordnance Survey does not warrant or represent that any of the Code-Point data is accurate, error-free or suitable for your purposes. In no event shall OS or the supplier of the Navigation System using the OS Code-Point data be liable for any consequential, special, incidental or indirect damages for any direct or indirect loss of revenue, profits, business, data, or use, incurred by you or any third party arising out of your use of the OS Code-Point data, whether in an action in contract or tort (including negligence and breach of statutory duty) or otherwise, even if OS or the supplier of the Navigation System has been advised of the possibility of such damages. In any event, OS's liability for direct damages is limited to the price of the copy of the OS Code-Point data. Nothing in these licence terms shall operate to exclude or limit any liability which cannot be excluded or limited by law.

THE DISCLAIMER OF WARRANTY AND LIMITATION OF LIABILITY, SET FORTH IN THIS AGREEMENT, DO NOT AFFECT OR PREJUDICE YOUR STATUTORY RIGHTS WHERE YOU HAVE ACQUIRED THE DATABASE OTHERWISE THAN IN THE COURSE OF A BUSINESS.

NAVTEQ CORPORATION

Please read this agreement carefully before using the Navigation System.

This is a licence agreement for your copy of the Navigable Map Database, (the 'DATABASE') originally made by NAVTEQ Corporation), used in the Navigation System. By using this DATABASE you accept and agree to all the terms and conditions below.

OWNERSHIP

The DATABASE and the copyrights and intellectual property or neighbouring rights therein are owned by NAVTEQ Corporation or its licensors.

LICENCE GRANT

NAVTEQ Corporation grants you a non-exclusive licence to use your copy of the DATABASE for your personal use or for use in your business' internal operations. This license does not include the right to grant sub-licenses.

LIMITATIONS OF USE

The DATABASE is restricted for use in the specific system for which it was created. Except to the extent explicitly permitted by mandatory applicable laws, you may not extract or re-utilise substantial parts of the contents of the DATABASE, not reproduce, copy, modify, adapt, translate, disassemble, decompile, or reverse engineer any portion of the DATABASE.

TRANSFER

You may not transfer the DATABASE to third parties, except together with system for which it was created, provided that you do not retain any copy of the DATABASE, and provided that the transferee agrees to all terms and conditions of this agreement.

DISCLAIMER OF WARRANTY

NAVTEQ Corporation does not warrant or make any representations regarding, either express or implied, regarding the use or results of the use of the DATABASE in terms of its correctness, accuracy, reliability, or otherwise and expressly disclaims any implied warranties of quality, performance, merchantability, fitness for a particular purpose or non-infringement.

NAVTEQ Corporation does not warrant that the DATABASE is or will be error-free. No oral or written information or advice provided by NAVTEQ Corporation, your supplier or any other person shall create a warranty.

LIMITATION OF LIABILITY

The price of the DATABASE does not include any consideration for assumption of risk of consequential, indirect or unlimited direct damages which may arise in connection with your use of the DATABASE.

Accordingly, in no event shall NAVTEQ Corporation or supplier of the navigation system using the DATABASE ('Supplier') be liable for any consequential, special, incidental or indirect damages, including without limitation, loss of revenue, data, or use, incurred by you or any third party arising out of your use of the DATABASE, whether in an action in contract or tort or based on a warranty, even if NAVTEQ Corporation or the Supplier has been advised of the possibility of such damages. In any event, NAVTEQ Corporation's liability for direct damages is limited to the price of your copy of the DATABASE.

THE DISCLAIMER OF WARRANTY AND LIMITATION OF LIABILITY, SET FORTH IN THIS AGREEMENT, DO NOT AFFECT OR PREJUDICE YOUR STATUTORY RIGHTS WHERE YOU HAVE ACQUIRED THE DATABASE OTHERWISE THAN IN THE COURSE OF A BUSINESS. Some states and laws do not allow the exclusion of implied warranties, so the above disclaimer may not apply to you.

The DATABASE reflects reality as existing before you received the DATABASE and it comprises data and information from government and other sources, which may contain errors and omissions. Accordingly, the DATABASE may contain inaccurate or incomplete information due to the passage of time, changing circumstances, and due to the nature of the sources used. The DATABASE does not include or reflect information on - inter alia - neighbourhood safety; law enforcement; emergency assistance; construction work; road or lane closures; vehicle or speed restrictions; road slope or grade; bridge height, weight or other limits; road or traffic conditions; special events; traffic congestion; or travel time.

GOVERNMENT END USERS

If the DATABASE is for a region of North America and is being acquired by or on behalf of the United States government or any other entity seeking or applying rights similar to those customarily claimed by the United States government, the DATABASE is licensed with 'limited rights'.

Navigation system

Utilization of the DATABASE is subject to the restrictions specified in the 'Rights in Technical Data and Computer Database' clause at DFARS 252.227-7013, or the equivalent clause for non-defence agencies. Manufacturer of the DATABASE of North America is NAVTEQ Corporation, 10400 W. Higgins Road, Suite 400, Rosemont, Illinois 60018, USA.

EUROPEAN DECLARATION OF CONFORMITY

Hereby, DENSO CORPORATION declares that this DN-NS-019 is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.
