The emergency key blade in the Smart Key can also be used to open the luggage compartment, as follows:

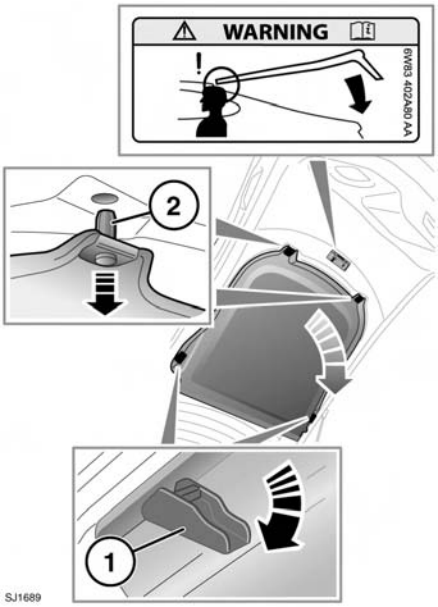

1. Press and hold the release button (**4**) on the Smart Key, then remove the emergency key blade (**5**).
2. Remove the license plate to locate the emergency key lock.
3. Insert the emergency key blade into the lock (**6**) and turn clockwise to open the luggage compartment.

   If the security system is armed, the alarm will sound when the luggage compartment is opened. To deactivate the alarm, press the vehicle unlock button on the Smart Key or press the engine starter button with the Smart Key inside the vehicle.

   Note: *If the Jaguar Smart Key is inoperable, the alarm can be deactivated by docking the Smart Key into the starter control unit.*

LUGGAGE COVERS (Coupe only)

It is not advisable to place items on the luggage cover.

To remove the luggage cover: Release the two latches (**1**) and slide the cover downwards and forwards, so that the two rear locating pegs (**2**) are disengaged. This will allow the cover to be removed.

To refit the luggage cover: Locate the two rear pegs (**2**). Then, from the side of the vehicle, support the luggage cover and fit one of the front catches (**1**). Press it firmly through the cover and close the catch. Repeat this procedure on the other side of the vehicle.
