

BLUETOOTH® INFORMATION

Bluetooth® is the name for short-range radio frequency (RF) technology that allows electronic devices to communicate wirelessly with each other.

The Jaguar Bluetooth® system supports Bluetooth® Hands-Free Profile (HFP), Advanced Audio Distribution Profile (A2DP) and Audio Video Remote Control Profile (AVRCP).

Note: *HFP and A2DP/AVRCP profile can be connected independently, so a phone can be connected via one, while a media device can be connected via the other, at the same time.*

Before making use of the vehicle's Bluetooth phone system, your Bluetooth phone must be paired and connected to the vehicle system. This is done using one of two methods; via your phone to the vehicle or from the touch screen to your phone. If one of these methods is not successful, try the other option.

Each time the ignition is switched on the system will attempt to connect with the last connected phone.

As cell phones have a wide range of audio and echo characteristics, it may take a few seconds for the vehicle system to adapt and deliver optimum audio performance. To achieve this, it may be necessary to reduce the in-vehicle volume and ventilation fan speed slightly.

TELEPHONE SAFETY

⚠WARNING

Even when using the Bluetooth hands-free feature, use of your telephone while you are driving is dangerous, as it diverts attention from the traffic situation. If you wish to use your telephone, stop at an appropriate place where you are not endangering or inconveniencing other vehicles.

⚠WARNING

Drivers should only talk on their cell phones when it is safe to do so and when such use will not distract the driver from the road.

⚠WARNING

Drivers should never text message while driving. Texting while driving diverts attention from the road and can lead to accidents, causing serious injury or death.

⚠WARNING

Switch off your telephone in areas with a high explosion risk. This includes filling stations, fuel storage areas or chemical factories, as well as places where the air contains fuel vapor (such as an open vehicle hood), chemicals or metal dust. The telephone could trigger an explosion, or cause a fire.

⚠WARNING

The functioning of cardiac pacemakers or hearing aids may be impaired when the phone is in use. Check with a doctor or manufacturer whether any such devices you or your passengers are using, are sufficiently protected against high-frequency energy.

The Health Industry Manufacturers' Association recommends that a minimum separation of 6 inches (15 centimetres) is maintained between a wireless phone antenna and a pacemaker, to avoid potential interference with the pacemaker. These recommendations are consistent with the independent research by, and recommendations of, Wireless Technology Research.

⚠CAUTION

Always stow your cell phone securely. In an accident, loose items can cause injury.

TELEPHONE COMPATIBILITY

Please refer to the Ownership section of the Jaguar website at www.jaguar.com, for a list of compatible phones.

Note: *The Bluetooth® equipped phones listed on Jaguar.com, have been tested for compatibility with Jaguar vehicles.*

Performance will vary, based on the phone's software version, battery condition, coverage and your network provider. Phones are warranted by their manufacturer, not Jaguar.

If the cell phone supports Bluetooth® Hands Free Profile 1.5 (HFP 1.5), additional features will be displayed on the vehicle touch screen, such as battery meter, signal strength and network operator.

PAIRING AND CONNECTING USING THE CELL PHONE

Note: *The process of pairing and connecting your phone with the vehicle using the cell phone will vary depending on the type of cell phone used.*

1. Switch the ignition on and ensure that the touch screen is active.
2. From the home menu, select **Phone**. A menu will appear.
3. On the cell phone, turn on Bluetooth and then select **Device to vehicle** option.

Note: *The vehicle's Bluetooth® system is discoverable for only 3 minutes.*

4. Using the cell phone, search for Bluetooth® devices.

On some phones, this is referred to as new paired device. See your phone's operating instructions for further information.

5. When the vehicle's Bluetooth® system is discovered, begin the pairing process using your cell phone and follow any directions shown on the touch screen. Select **Yes** when prompted, to confirm the pairing.

When prompted, enter the PIN code **1313** into your phone and select **OK** to confirm.

6. Once your phone is paired and connected to the system, a confirmation message will be displayed before switching to the Digit Dial screen.

Note: *Some cell phones require the Bluetooth® pairing to be set as 'authorized' or 'trusted' in order to automatically connect. Please refer to your phone's operating instructions for further information.*

PAIRING AND CONNECTING USING THE TOUCH SCREEN

1. Switch on your cell phone's Bluetooth® connection using the phone's menu. Make sure that your cell phone is in Bluetooth® discoverable mode, sometimes referred to as find me mode (see your phone's operating instructions for more information).
2. Switch the ignition on and ensure the touch screen is active.
3. From the home menu select **Phone**.
4. A menu will appear. Select **Search new**.
5. Identify your phone from the displayed list and select the corresponding **Pair and dock** option.

Note: *If more than 5 phones are detected, it may be necessary to use the scroll bar to see the entire list.*

6. When prompted, enter the PIN code displayed on the screen.

- Once your phone is paired and connected to the system, a confirmation message will be displayed before switching to the Digit Dial screen.

Note: Due to the duration of a Bluetooth® search, it is advised that the timeout to home screen feature is switched off before attempting to search for Bluetooth® devices. This setting can be changed within **Vehicle, Syst settings**, see **61, SYSTEM SETTINGS**.

CHANGING THE CONNECTED PHONE

Up to 5 cell phones can be paired with the vehicle in the same way. However, only one can be connected and ready for use as a phone at any one time.

To connect a different paired phone to the vehicle, follow the steps below:

- Select **Settings** on the Digit Dial screen, see **124, TELEPHONE SYSTEM OVERVIEW**.
- A menu will appear. Select **Change phone**.
- Identify and select your phone from the displayed list.
- Once your phone is connected to the system, a confirmation message will be displayed before switching to the Digit Dial screen.

TELEPHONE SYSTEM ICONS

Connect. Use to send or accept a call and access last 10 calls list.

Disconnect. Use to end or reject a call.

No phone connected.

Phone signal strength indicator.

Phone battery level indicator.

Voicemail. Press and hold to dial the stored voicemail number.

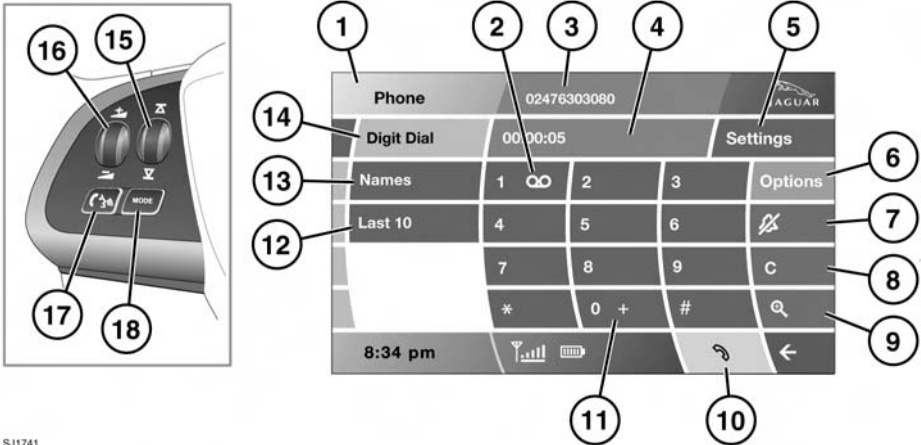

Scroll bar up arrow. Use to scroll up lists of detected phones, calls or phonebook entries.

Scroll bar down arrow. Use to scroll down lists of detected phones, calls or phonebook entries.

TELEPHONE SYSTEM OVERVIEW

SJ1741

⚠ WARNING

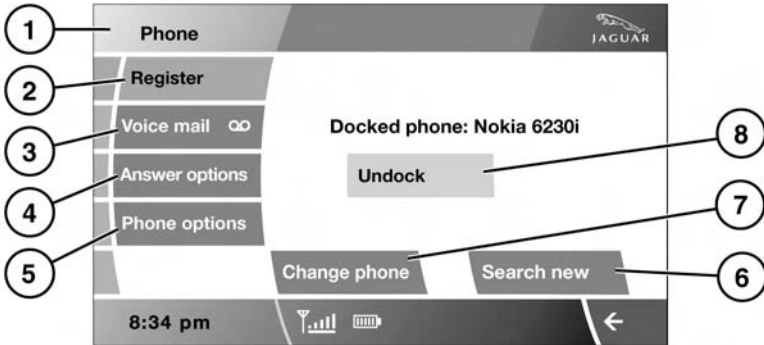

Do not adjust the touch screen controls, or allow the system to distract the driver, while the vehicle is moving. Driver distraction can lead to accidents, causing serious injury or death.

1. Digit Dial screen.
2. Touch and hold to retrieve your Voice mail.
3. Status display: Displays the number dialed etc.
4. Information display.
5. **Settings**, see **125, SETTINGS**.
6. **Options**: Touch to select up to 4 ring tones or to use your own cell phone ring tone.
7. Mute microphone: Touch to initiate Privacy mode. While selected, the caller will not hear you talking.
8. **C** button: When typing a phone number, a brief touch deletes a single digit or a long touch clears the whole number.
9. Touch to magnify the keypad.
10. Call Connect/Disconnect: Touch to send/accept or end/reject a call.
11. Keypad.
12. **Last 10**: Touch to access the last 10 dialed, received and missed calls.
13. **Names**: Touch to access the downloaded phonebook search screen.
 - Select the first letter of the contact name (continually touch until the correct letter is shown).
 - Touch **OK** to access list of names in the phonebook directory.
 - Select the desired name to make a call.
14. **Digit Dial**: Touch to access Digit Dial mode.
15. Scroll control: Turn to scroll up/down lists of calls or phonebook entries.
16. Volume control: Turn to increase/decrease call volume.
17. Call button: Briefly press to initiate or end a call.

- 18. MODE:** Press and hold to access phone mode on the touch-screen and message center.

***Note:** Using the hands-free steering wheel controls is the preferred method of adjustment, as driver distraction is minimized.*

SETTINGS

SJ1742

1. **Settings** menu: see **124, TELEPHONE SYSTEM OVERVIEW**
2. **Register:** Gives the option to **Undock (8)**, **Change phone (7)** and **Search new (6)**.
3. **Voice mail:** Select and enter the number provided by your service provider, and select **OK**.
4. **Answer options,** Touch to access the following:
 - **Auto answer:** If automatic answer is on, the call will automatically answer after a few seconds. Select **Off** or **On**.
 - **Caller announce:** If available, this feature allows the callers name to be announced. Select **Off** or **On**.
5. **Phone options,** Touch to access the following:
 - **Ring tones:** Select from 4 ring tones or the option to use your cell phone ring tone.
 - **Phonebook,** Touch to access the following options: **Auto download**, **Start manual download** and **Erase entire phonebook**.
When **On** is selected for **Auto download**, the vehicle will automatically download the entire phonebook directory each time the phone is docked.
6. **Search new:** Touch to search for all Bluetooth® phones that are within range.
7. **Change phone:** see **123, CHANGING THE CONNECTED PHONE**.
8. **Undock:** Touch to undock a docked phone.

CALL VOLUME

The phone call volume is operated by the audio system's volume control.

If the audio system is in use when a phone call is active, the audio system source is suppressed for the duration of the call.

Telephone

DIALLING

Once your phone is connected to the vehicle's system, Digit Dial is the default screen in Phone mode.

Using the on-screen keypad, enter the required number and touch the connect icon to send.

Note: When entering a number, you can change the phone number shown on the touch screen using the **C** button. A momentary touch erases a single digit, a long touch erases the complete number.

LAST 10 OPTION

Allows view of the last 10 calls made, received or missed.

Note: The vehicle will display the list in the order the calls were recorded. If this information is not available, they will be displayed as they are sent from the cell phone. Some phones may arrange the list in reverse or other order.

PHONEBOOK

Contacts stored in the memory of a paired phone can be automatically or manually downloaded to the vehicle's phonebook each time the phone is connected to the system. See **125, SETTINGS**.

Certain cell phones store the phonebook in two different areas, the SIM card and the phone memory. The vehicle system will access only those numbers stored in the phone memory.

To access contacts from the phonebook, touch the **Names** soft key on the Digit Dial menu, see **124, TELEPHONE SYSTEM OVERVIEW**.

If your phone supports contact type data, you will be able to see a contact type icon in the vehicle's phonebook directory. These can be seen on the right-hand side of each contact in the directory and will indicate one of the following types:

Car.

Cell phone.

Home.

Work.

DECLARATION OF CONFORMITY

Export controls

This product contains commodities, technology or software exported from the United States in accordance with the Export Administration regulations. Diversion contrary to U.S. or Canadian law is prohibited.

United States of America

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Canada

This device complies with Industry Canada Standard IC - RSS-210: Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This equipment complies with FCC/IC radiation exposure limits set forth for uncontrolled equipment and meets the FCC radio frequency (RF) Exposure Guidelines in Supplement C to OET65 and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that is deemed to comply without maximum permissive exposure evaluation (MPE).

But it is desirable that it should be installed and operated with at least 8 inches (20 cm) and more between the radiator and person's body (excluding extremities: hands, wrists, feet and ankles).

USA FCC ID: A269ZUA130

Canada IC: 700BIAM2101

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: *This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.*

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- *Reorient or relocate the receiving antenna.*
- *Increase the separation between the equipment and the receiver.*
- *Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.*
- *Consult the dealer or an experienced radio/TV technician for help.*
