

Parking aids

REAR CAMERA

 **It remains the driver's responsibility to detect obstacles and estimate the vehicle's distance from them when reversing.**

When reverse gear is selected, the touch screen automatically displays a wide angle, colour image from the rear of your vehicle.

The rear view camera system provides a rear view image to assist in reversing the vehicle. Overlaid on the image are reversing guidelines.

E142176

- A. Solid line: The projected wheel trajectory.
- B. Dotted line: The safe working width of the vehicle (including exterior mirrors).
- C. Boot access guidelines: Do not reverse past this point if boot access is required.
- D. Parking aid sensor activation: a coloured area appears to indicate which rear sensor(s) is active.

Note: The camera display has priority over the parking aid display. To view the parking aid display instead, or to cancel camera display, touch the display.

Rear view camera display on the touch screen will discontinue when either of the following apply:

- Drive is selected for longer than 15 seconds.
- Drive is selected and/or vehicle speed is greater than 18 km/h (11 mph).
