

Seat belts

After any impact, have the seat belts and pre-tensioners checked and, if necessary, replaced by a Dealer/Authorised Repairer.

SEAT BELT REMINDER

Beltminder commences when the vehicle is in motion and the driver's belt is unbuckled. Dependent on market, the warning indicator in the instrument pack illuminates, the message FASTEN SEAT BELTS appears in the message centre and an audible chime sounds. The visual and audible warnings applicable to the Beltminder feature are market dependent to meet individual market requirements. The warning signals given may also change depending on whether the vehicle is stationary or when the vehicle speed exceeds a pre-determined threshold. In certain markets, the Beltminder feature also applies to the front passenger seat.

Note: *Objects placed on the front passenger seat may activate the seat belt reminder warning chime and indicator. It is recommended that any objects placed on the front passenger seat are secured using the seat belt.*
