6. Now enter the road name. Once sufficient letters have been entered, touch **OK** or **List** to display all the possible roads.
7. Select the road you require. Enter the house number of the address (if known) then touch **OK** to confirm.
8. If the house number is not known, select **OK**, the mid-point of the road is then used as the destination.
9. The map screen showing the selected destination details is displayed. Touch **GO** to calculate the default quick route, or **Review route** for alternative routes.
10. Touch **GO** to start journey.

START GUIDANCE

After selecting a **Destination**, the system will calculate the route.

1. There is now a choice to select **3 Routes**, **Change route** or select **GO**, to start navigation guidance.
2. Touch **3 Routes** to display a choice of 3 different route options on the map. The roads on the map are drawn in 3 different colours to highlight each route. EcoRoute helps you find the most fuel efficient route available. A display of 3 leaves indicates the most fuel efficient route.
3. Select route **1**, **2** or **3** by touching the respective box displayed on the right side of the map.
4. Touch **Change Route** followed by **Route prefs.** to change the route settings. Press **OK** followed by **Calculate route** for changes to take effect.
5. When you have made your selection, if any, touch **GO**.

Note: *As you approach a junction, in addition to the voice guidance, an inset on the map will display an enlarged view of the junction.*

AVOID POINTS

When calculating a route, an area to avoid can be set and stored.

1. From the **Nav menu**, select **Stored locations**.
2. Select **Avoid points**.
3. Select **Add**.
4. Select the location of area to avoid from the **Destination entry** menu. Touch **OK** to activate the view where the size of the area to avoid can be set.
5. Touch **OK** to activate the area to avoid. The size of the area can be adjusted.
6. Touch **OK**, the area to avoid is now set and stored.

To edit or delete an area to avoid from the stored list:

1. From the **Nav menu**, select **Stored locations**.
2. Select **Avoid points**.
3. From the sub-menu, select **Edit** or **Delete**.

EASY ROUTE

In Route options, Easy Route can be turned On or Off.

When **On** is selected, **Easy Route** changes the calculation parameters of **Route 3** in order to reduce:

- Junctions.
- Turns.
- Turns that cross traffic.
- The priority of minor roads.
- Complex junctions and manoeuvres.
