

## POLISHING

- ❗ Chrome polish, or other abrasive cleaners, must not be used on the vehicle's brightwork.

It is recommended that the vehicle is polished regularly using Jaguar polish and a polishing cloth.

## CLEANING THE INTERIOR

- ❗ The steering wheel centre pad, and other areas containing airbags, should only be cleaned sparingly with a damp cloth, warm water, and a non-detergent soap.

## CLEANING LEATHER UPHOLSTERY

To prevent ingrained dirt and staining, inspect the seat upholstery regularly and clean every 1 to 2 months, as follows:

- Wipe off fine dust from the seat surfaces using a clean, damp, non-coloured cloth. Change frequently to a clean area of cloth, to avoid abrasive action on the leather surface. Avoid over-wetting.
- If this is not sufficient, use a cloth which has been dampened with warm soapy water and then wrung out. Use only mild non-caustic soap.
- Use Jaguar recommended leather cleaner for heavily soiled areas. Dry off and rub with a clean soft cloth, changing surfaces regularly.

Use Jaguar recommended leather cleaner several times a year to maintain its appearance and suppleness. The cleaner will nourish and moisturise, and help to improve the surface protective film against dust and substances.

- Do not use solvents. Do not use detergents, furniture polish, or household cleaners. While these products may initially give impressive results, their use will lead to rapid deterioration of the leather and will invalidate the warranty. Jaguar recommend a basic set of products that have been specially selected for the type of leather in your vehicle.
- Dark clothing may stain leather seats, just like other upholstery products.
- Sharp objects, such as belts, zip fasteners, rivets, etc., can leave permanent scratches and scratch marks on the leather surface.
- Unless spillages, such as tea, coffee or ink are washed away immediately, permanent staining may have to be accepted.

If a valet service is used, make sure that the specialist concerned is aware of the above instructions and follows them precisely.

## CLEANING FABRIC UPHOLSTERY

- ❗ Never use soap, ammonia, bleach, or other cleaners intended for use on hard surfaces.
- ❗ Do not use upholstery cleaner on electrical equipment such as facia switches.
- ❗ When cleaning around electrical equipment, such as switches, make sure that fluids do not leak into any gaps around the components, or between panels or trim.

Use Jaguar Upholstery Cleaner, following the instructions. Avoid over-wetting.

## REMOVING STAINS

Most stains on woollen fabric can be removed if treatment is carried out immediately, before the stain has a chance to dry-in.
