

If you are using any portable media device via the AUX socket, then you must control playback from the device itself.

- ❗ Do not connect a hard disc drive via the USB socket. These devices are not designed for in-car use and may be damaged.

CONNECTING MULTIPLE DEVICES

- ❗ Do not plug non-audio devices into the USB port.

Devices can be connected simultaneously to the USB and AUX sockets, enabling you to switch between them using the Touch screen. Select **iPod**, **USB**, **Bluetooth** or **AUX**, to switch between modes.

The device connected first will remain the active device until you choose to change.

If, after changing to a newly connected device, you change back to the first device, play will resume at the point you left it (USB and iPod only).

Note: A USB hub cannot be used to connect more than 1 USB device to the audio unit.

Note: Devices connected to the iPod/USB port will be charged, but devices that are fully discharged will not play.

Note: Options, such as **Repeat** and **Mix**, relate to the device currently playing and will not apply to any subsequent device.

PAIRING AND CONNECTING USING THE MEDIA PLAYER

For further information on **Bluetooth**® wireless technology, see **126, BLUETOOTH® INFORMATION**.

Note: The process of pairing and connecting your media device with the vehicle, using the media device, will vary depending on the type of media device.

1. Switch on the ignition and make sure that the Touch screen is active.
2. From the **Home menu**, select **Audio/Video**, then the **My music/Source** soft key.
3. Touch **Bluetooth**.
4. A menu will appear. Select **Change device**.
5. Select the **Device to vehicle** option.

Note: The vehicle's **Bluetooth** wireless technology system is only discoverable for 3 minutes.

6. Using the media device, search for Bluetooth wireless technology devices. On some media devices, this is referred to as new paired device. See your media device's operating instructions for further information.
 7. When the vehicle's **Bluetooth** wireless technology system is discovered, follow the on-screen instructions. Select **Yes** when prompted, to confirm the pairing. Either your device or the vehicle system will ask for a PIN (Personal Identification Number). When prompted, enter a PIN of your choice and select **OK** to confirm.
 8. Enter the same PIN into the other device.
 9. Once your device is paired and connected to the system, a confirmation message will be displayed, before switching to the **My media, Bluetooth** screen.
- Note:** Some media devices do not automatically connect and need to be manually connected, via the device or by using the **Change device** option.

PAIRING AND CONNECTING USING THE TOUCH SCREEN
