

# Child safety

3. Attach the tether strap hook to the tether anchor point on the back of the seat. Make sure that the tether strap hook is facing the correct way (see graphic).
4. Tighten the tether strap according to the manufacturer's instructions.

**Note:** *\*On vehicles fitted with Executive class rear seats, raise the centre armrest to the up-right position and pass the strap over the top.*

## BOOSTER SEATS

In a situation where a child is too large to fit into a child safety seat, but is still too small to safely fit the three point belt properly, a booster seat is recommended for maximum safety. Follow the manufacturer's instructions for fitting and use, then adjust the seat belt to suit.
