

Technical specifications

WARNING

Any person fitted with an implanted medical device should be kept at a distance of at least 8.7 inches (22 cm) away from any transmitter mounted in the vehicle. This is to avoid any possibility of interference between the system and the device.

RADIO FREQUENCY SPECTRUM REGULATION STATEMENTS

USA

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Canada

This device complies with Industry Canada Standard IC - RSS-210: Operation is subject to the following two conditions:

- (1) This device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

The key system transmitter Radio Frequency (RF) approval numbers for the USA and Canada are shown below:

USA FCC ID:	KOBJTF10B
	KOBJLR09A
	KOJBGB10A
	KOJBGB10B
Canada IC:	3521A-JTF10B
	3521-JLR09A

	3521-JBG10A
	3521-JBG10B

Note: The manufacturer is not responsible for any radio interference or TV interference caused by unauthorized modifications to this equipment. Changes or modifications, not expressly approved by the party responsible for compliance, could void the user's authority to operate the equipment.

NOTICE

The Smart key may suffer interference from other legal users of this RF band, such as radio amateurs, medical equipment, remote controls, or alarm systems. To lock or unlock the vehicle in such a situation, either use a key or operate the key transmitter as close to the security antenna as possible.
