

## PAIRING AND CONNECTING USING THE TOUCH SCREEN

1. Switch on the cell phone's **Bluetooth®** wireless technology connection using the phone's menu. Make sure that the cell phone is in **Bluetooth** wireless technology discoverable mode, sometimes referred to as 'find me' mode (see the phone's operating instructions for more information).
2. Switch the ignition on and make sure that the Touch screen is active.
3. From the **Home menu**, select **Phone**.
4. A menu will appear. Select **Search new**.
5. Select the **Vehicle to device** option.
6. Identify your phone from the displayed list and select the corresponding **Pair and connect** option.

**Note:** *If more than 5 phones are detected, it may be necessary to use the scroll bar to see the entire list.*

7. When prompted, enter the PIN code into your phone. See your phone's operating instructions for more information.
8. Once your phone is paired and connected to the system, a confirmation message will be displayed before switching to the **Digit dial** screen.

**Note:** *Due to the duration of a **Bluetooth** wireless technology search, it is advised that the **time out to home screen** feature is switched off before attempting to search for **Bluetooth** wireless technology devices. This setting can be changed from within the vehicle **Setup** menu, accessed from the Touch screen Home menu.*

## CHANGING THE CONNECTED PHONE

Up to 10 cell phones can be paired with the vehicle in the same way. However, only one can be connected as a phone at any one time.

To connect a different paired phone to the vehicle, follow the steps below:

1. From the **Home menu**, select **Phone**.
2. A menu will appear. Select **Change phone**.
3. Identify and select your phone from the displayed list.
4. Once your phone is connected to the system, a confirmation message will be displayed before switching to the **Digit dial** screen.
