

# Telephone

Scroll bar down arrow: Use to scroll down lists of detected phones, calls, or phonebook entries.

## STEERING WHEEL CONTROLS

1. Press to answer an incoming call. Press to end a call. Press and release to dial a number/contact. Press and release to access the last 10 dialed list. Press and hold to access the phonebook list view.
2. Increase the volume when in a call, scroll up a displayed list or a number listed for a stored contact.
3. Decrease the volume when in a call, or scroll down a displayed list or a number listed for a stored contact.
4. Press to scroll to the Last 10 list and received calls.
5. Press to scroll back through received calls, the Last 10 list, and finally to exit the list.

**Note:** When scrolling through a phonebook or the Last 10 list, each contact is also displayed in the Message center.

## CALL VOLUME

The phone call volume is operated by the Audio system's volume control.

If the Audio system is in use when a phone call is active, the Audio system source is suppressed for the duration of the call. Navigation instructions and Parking aid warnings are not suppressed.

## PHONEBOOK

Contacts stored in the memory of a paired phone can be automatically downloaded to the vehicle's phonebook each time the phone is connected to the system. See **128, TELEPHONE COMPATIBILITY**.

Certain cell phones store the phonebook in 2 different areas, the SIM card and the phone's memory. The vehicle's system will access only those numbers stored in the phone's memory.

### To access contacts from the phonebook:

1. From the **Phone** menu, select **Phonebook**.
2. Using the alpha keys, select the letter you wish to search under. Repeated selections of the same key, scrolls through the letters displayed on the keys.
3. Select **List** to view the Phonebook.
4. Identify the required contact from the displayed list and touch to call. If a contact has more than one number stored, select the required number from the list.

**Note:** It may be necessary to use the scroll bar to see the entire list.

There are also options to view more contact information, by selecting the corresponding **i** key.

If your phone supports contact type data, you will be able to see a contact type icon in the vehicle's phonebook directory. These can be seen on the right side of each contact in the directory and will indicate one of the following types:

Default.
