

LEATHER UPHOLSTERY

NOTICE

Some materials are prone to dye transfer, which can cause unsightly discoloration of lighter colored leathers. Affected areas should be cleaned and re-protected as soon as possible.

To prevent ingrained dirt and staining, inspect the seat upholstery regularly and clean every one to two months, as follows:

- Wipe off fine dust from the seat surfaces using a clean, damp, non-colored cloth. Change frequently to a clean area of cloth, to avoid abrasive action on the leather surface. Avoid over-wetting.
- If this is not sufficient, use a cloth which has been dampened with warm soapy water and then wrung out. Use only mild non-caustic soap.
- Use Jaguar Leather Cleaner for heavily soiled areas. Dry off and rub with a clean soft cloth, changing surfaces regularly.

Use Jaguar Leather Cleaner several times a year to maintain its appearance and suppleness. The cleaner will nourish and moisturize, and help to improve the surface's protective film against dust and substances.

- Do not use solvents. Do not use detergents, furniture polish, or household cleaners. While these products may initially give impressive results, their use will lead to rapid deterioration of the leather and will invalidate the warranty. Jaguar recommends a basic set of products that have been specially selected for the type of leather in your vehicle.
- Dark clothing may stain leather seats, just like other upholstery products.
- Sharp objects, such as belts, zip fasteners, rivets, etc., can leave permanent scratches and scratch marks on the leather surface.

- Unless spillages, such as tea, coffee, or ink are washed away immediately, permanent staining may have to be accepted.

If a valet service is used, make sure that the specialist concerned is aware of, and follows, these instructions precisely.

FABRIC UPHOLSTERY

NOTICE

Never use soap, ammonia, bleach, or other cleaners intended for use on hard surfaces.

NOTICE

Do not use upholstery cleaner on electrical equipment such as facia switches.

NOTICE

When cleaning around electrical equipment, such as switches, make sure that fluids do not leak into any gaps around the components or between panels or trim.

Use Jaguar Upholstery Cleaner, following the instructions. Avoid over-wetting.

REMOVING STAINS

Most stains on woollen fabric can be removed if treatment is carried out immediately, before the stain has a chance to dry-in.

Most stains can be treated with one of three cleaning fluids: Jaguar Upholstery Cleaner, dry cleaning fluid, or clean water. Follow the instructions on the package.

INSTRUMENT PANEL, TOUCH SCREEN AND AUDIO SYSTEM

Only use a soft, dry cloth to clean the Instrument panel, clock, and audio equipment. Do not use cleaning fluids or sprays.
