

# Stability control

The DRS will retract if the vehicle's speed is below 50 mph (80 km/h).

## Cleaning mode (Coupe only)

To manually deploy the DRS for cleaning, make sure that the:

- Vehicle is stationary with the Electric Parking Brake (EPB) applied, and the transmission in Park (**P**).
- Luggage compartment is in the fully closed position.
- Engine is not running.
- Ignition is on, or has been on within the last 15 seconds.

Press the switch; the switch lamp will illuminate to confirm and the message **SPOILER IN CLEANING MODE** will appear in the Message center.

Press and hold the switch to return to automatic mode. The switch lamp will extinguish.

If the vehicle is driven while the DRS is in cleaning mode, the DRS will automatically retract when the vehicle's speed is greater than 1.3 mph (2 km/h).

**Note:** To manually retract the DRS, the switch must be continually pressed until the DRS is fully retracted. If retraction is aborted, then release the switch and press again to return to the fully deployed position.

## ACTIVE DIFFERENTIAL CONTROL

The Active differential control (E-diff) improves traction on uneven road surfaces and can also improve stability in oversteer situations.

If the warning message **EDIFF SYSTEM FAULT** is displayed and DSC is off, then TracDSC will be automatically selected. The vehicle can still be driven and DSC modes can be selected, but seek qualified assistance as soon as possible.

If the warning message **EDIFF NOT AVAILABLE** is displayed, the system has temporarily shut down to prevent overheating. The vehicle can still be driven and the E-diff will be operational again when the system has cooled sufficiently.

During the first 1 000 miles (1 600 km):

- Avoid full throttle applications and do not exceed 120 mph (190 km/h). Observe the national speed limits in the country in which you are traveling.
- Avoid prolonged periods in excess of 100 mph (160 km/h).

During the first 5 000 miles (8 000 km):

- Do not exceed 155 mph (250 km/h).
- Do not participate in motor racing events, track days, sports driving schools, or similar.
