

Navigation system

The TMC event icons appear on the navigation map display to indicate the location and nature of a TMC event.

TMC event icons will appear on the map, even if the event does not occur on your route.

Incident (Red star).

Traffic congestion ahead (Red arrow).

Moving traffic congestion, both lanes (Red double arrow).

Slow traffic ahead (Yellow arrow).

Slow traffic both lanes (Yellow double arrow).

Information (Yellow circle).

Incident (Yellow star).

Note: Single arrow icons indicate that the traffic event affects traffic traveling in the direction of the arrow. Double arrows indicate that both directions are affected.

If the map is scrolled to any of the above events, further details are available and are indicated as one of the following icons.

Closed road.

Special warning (orange diamond).

Danger (red diamond).

Stationary traffic.

Congestion.

Delay.

Diversion.

Contraflow (reversible lane).

Event.

Height width limit.

USING TMC

Dynamic route guidance will calculate an alternative route to avoid a traffic event when the system receives an event warning. The system calculates a new route for all sections. However, if any waypoints are set, the system calculates for the next waypoint. If the event on route is serious (closed road), or if the new route is shorter than the current one and the current one was not recalculated within the last 5 minutes, then a message to confirm the new route will be displayed. This pop-up message will be displayed for 5 minutes and if the new route is not rejected, then the vehicle will stay on the current route.
