

Child restraint anchorages are designed to withstand only those loads imposed by correctly fitted child restraints. Under no circumstances are they to be used for adult seat belts, harnesses or for attaching other items or equipment to the vehicle.

CHILD SEAT POSITIONING

The information given within the table is correct at the time of going to press. However, availability of child restraints may change. Please consult a Dealer/Authorised Repairer for the latest recommendation.

***Note:** The information contained in the following table may not be applicable to all countries. If you are in any doubt regarding the type and fitment of child seats, seek advice from a Dealer/Authorised Repairer.*

***Note:** The legislation which governs how and where children should be carried when travelling in a vehicle, is subject to change. It is the responsibility of the driver to comply with all regulations in force.*

Mass group	Seating positions		
	Front passenger*	Rear outboard	Rear centre
0 = Up to 10 kg (22 lb.) 0 to 9 months	U	U	X
0+ = Up to 13 kg (29 lb.) 0 to 18 months	U	U	X
I = 9 to 18 kg (20 to 40 lb.) 9 months to 4 years	U	U	X
II = 15 to 25 kg (33 to 55 lb.) 4 to 9 years	U	U	X
III = 22 to 36 kg (49 to 80 lb.) 8 to 12 years	U	U	X

- **U** = Suitable for universal category restraints approved for use in this mass group.
- **UF** = Suitable for forward-facing universal category restraints approved for use in this mass group.
- **X** = Seat position not suitable for children in this mass group.

* Always make sure that the front passenger airbag is disabled before using a child restraint in this seating position. See **42, DISABLING THE PASSENGER AIRBAG**. The front passenger seat should be positioned fully rearward, the seat cushion to its highest position and the seatback adjusted to an upright position to support the child restraint. If the head restraint has been removed, make sure that it is refitted before the seat is used by a passenger.

***Note:** Ages given are approximate. In case of doubt, the child's weight, not age, should be used when considering an appropriate child seat.*
