CHILD RESTRAINT CHECK LIST

Every time a child travels in the vehicle, observe the following:

- Use appropriate child restraints.
- Carefully follow the instructions provided by the manufacturer of the restraint system.
- Adjust the harnesses for every child on every journey.
- Make sure that all slack is removed from the adult seat belt.
- Always attach the top tether when installing an ISOFIX/i-Size seat (If applicable to seat type).
- Always check the security of the child restraint.
- Do not dress a child in bulky clothing, or place any objects/padding between the child and the restraint.
- Regularly check the fit and condition of child restraints. If the fit is poor, or wear/damage is visible, replace the restraint immediately.
- Set a good example - always wear your seat belt.
- For child seats fitted with a support leg, adjust the leg so that it rests firmly on the floor.
- For some child seats it may be necessary to remove the head restraint to make sure of a stable fit. Always refit a removed head restraint after the child seat is removed.
