HEADLAMP WASHERS

The optional headlamp power wash operates automatically with the windscreen wash, and will only operate if the headlamps are switched on and there is sufficient washer fluid in the reservoir.

Headlamp wash operates every fourth operation of the screen washers, provided the headlamps are still switched on and approximately 10 minutes have elapsed since the last headlamp wash.

Switching the headlamps or the ignition off and back on again, will reset the cycle. See **56, LIGHTING CONTROL**, or see **100, SWITCHING OFF THE ENGINE**.

Note: *The headlamps are washed alternately to prevent the washer fluid from reducing the light output from both headlamps simultaneously.*
