REVERSE TRAFFIC DETECTION

E168618

M

The Reverse Traffic Detection (RTD) system is a supplement to, not a replacement for, safe driving, good observation, and use of the exterior and rear-view mirrors.

Note: RTD is automatically disabled when a trailer is connected and when Park assist is active.

In addition to the functionality provided by the rear-view camera, the RTD system provides a warning to the driver of any moving vehicle, at either side, that may pose an accident risk during a reversing manoeuvre.
