

Pairing using the phone or device (preferred method):

1. Switch the ignition on and make sure that the Touch screen is active.
2. Select **General settings**, then **Bluetooth**.
3. From the list, select **Make system discoverable**.
4. Switch on your phone or device's **Bluetooth** wireless technology device connection. Using your phone or device, search for and select your vehicle's **Bluetooth** connection (see your phone or device's operating instructions for more information).
5. A Passkey number is displayed on the phone or device. If this number matches the number on the Touch screen, touch **Yes**, or press **Pair** on the phone or device.

Pairing using the Touch screen

1. Switch on your phone or device's **Bluetooth** wireless technology device connection. Make sure that your phone or device is in **Bluetooth** wireless technology device **discoverable mode**, sometimes referred to as **find me** mode (see your phone or device's operating instructions for more information).
2. Switch the ignition on and make sure that the Touch screen is active.
3. Select **General settings** then **Bluetooth**.
4. Select **Search for Bluetooth Devices**.
5. The system searches for a phone or device and, if found, the phone or device displays on the screen.
6. Select the required device. If the phone or device is not found, **NO DEVICES FOUND** displays.
Note: The phone/device list can store up to four entries.
7. A Passkey number is displayed on the phone or device. If this number matches the number on the Touch screen, touch **Yes**.
8. When a phone or device is paired, it is included in the connected device's list and on the **PHONE** screen. It also appears in the **Bluetooth, List of paired devices** section.
