The Jaguar EliteCare Program

All Vehicles

Customers who do not present their vehicle at a retailer within the required time for scheduled maintenance may not receive the missed interval service under the Program.

Some owners may wish to have their engine oil changed more frequently than required by the Service Interval Indicator, for example should the vehicle have a high proportion of short journeys or operate in severe conditions. These extra services may be performed on a customer pay basis and the Service Interval Indicator will not be reset.

The Passport to Service's Maintenance Schedules describe the service and maintenance to be performed on your vehicle under the Program.

Jaguar Land Rover North America, LLC, (JLRNA) may publish updates to your Retailer for any changes to the maintenance schedules published in the Passport to Service. Wear and tear items (e.g., brake pads and windshield wiper blades) are excluded from the Program.

Having your vehicle serviced and maintained at the specified interval is critical to maintaining its long term durability. Failure to do this may invalidate the warranty under certain circumstances.
